1) Masergy will provide the required details to configure the Customer Provided Equipment (CPE). Additional installation or configuration support for the CPE is available, at a rate of $100 per hour (Consulting Fee).
2) In the event Customer requests expedited Service delivery, unless such expedite is set forth above, or Customer requests changes including, but is not limited to, requested dates, site contact information, or configuration changes (each a, "Supplemental Order" or "SUPP"), and Masergy agrees to such request, Masergy will invoice Customer the appropriate charges as set forth under the then-current Ancillary Service Charges document which is incorporated herein by this reference and available at www.masergy.com under Billing.
3) Variable Rate and Tiered Port prices are shown at the minimum tier. Any charges for usage above this tier will be billed pursuant to the list prices less any applicable discount.
4) Off-net voice usage (if applicable) will be billed pursuant to rates provided in a separate attachment.
5) Prices listed above are for Masergy service only and do not include potential charges that may be associated with the installation, maintenance, or warranty of circuit extension work or any additional construction required to complete local access facilities or line extensions. MASERGY will order all telco lines required for local access to the designated building point of demarcation. If formally requested by the customer, MASERGY will request the Local Exchange Carrier (LEC) or other 3rd party provider to extend the circuit from the designated building point of demarcation to the extended delivery point. In some cases MASERGY may not be able to provide the line extension. Customer may be billed separately by MASERGY or by a third party for fees associated with facilities construction or line extensions, if applicable.
6) Masergy Provided Equipment (MPE) will remain the property of Masergy and must be returned to Masergy, in substantially the same condition (normal wear and tear excepted) in the event of service termination.
7) Metered video and voice is calculated by taking the total of outbound and inbound Gigabits multiplied by the price per Gigabit.
8) Upon the Commencement Date of Service for each site shown above, Masergy agrees to credit Customer's account an amount equal to two months of the Monthly Recurring Charge set forth above, excluding Access Loop Charges, for each site.

Agreed and Accepted:
